Settings: many, including a variety of [Ardas](#) (the setting of the Silmarillion).

Main templates: [Bells](#) and [Maitimos](#), or [Fëanorians](#) more generally

Prerequisites:

All prerequisites are **optional** but contain helpful context. They are all readable standalone.

Luminosity & Radiance is quite long and worth reading first. Worm is also infamously long [NB: the creator of this reference hasn't read it]. The other prerequisites listed are not very long (longest is Eclipse) and can probably be read interspersed with Silmaril itself.

Content warnings:

Authors did not use content warnings.

Silmaril contains:

- characters being traumatized from having been tortured by evil gods
- (the evil god torture is offscreen, mostly)
- also a bit of regular, non-evil-god rape and domestic abuse (mainly in subcontinuity "Disappear")

Spoilers:

Subcontinuity "West" contains major spoilers for Puella Magi Madoka Magica.
